The perennial grid ace!

The Spalding 25Y Football is the standard grid player for football equipment.

Spalding manufactured the first football made in America. And every balling and kicking record has been made with the Spalding ball.

The most impressive testimony to the durability, durability and reliability of the football—and of football equipment—can be written. The Spalding equipment is also produced by the leaders.

"For He's a Nebraska Man . . ."

Couch Bible Brings His Gridiron Prodigies to State Field for 39th Anniversary Clash

Edna E. Bible

Since 'way back in 1896, you of Nebraska and we of Iowa State have been getting together in those annual football affairs which have become a tradition with our respective schools and a golden thread of the Midlands. Perhaps you have won a few more football games than we, but for one thing it is no more water under the bridge and both of us are contributing today's prospects.

Frankly, we like that little fellow with the ball game who coaches those mighty Husker teams. We like him because he is a true sport and because he's a Nebraska man. He has produced some wonderful football teams at Nebraska, like Paul E. Hinkle, and we admire him greatly for it.

Last year, as you remember, Nebraska won the game in that horridly hallowed stadium of yours at Lincoln. After the game, Coach Bible came to the Iowa State dressing room and said, "Well, Football, did my boys pull anything you didn't like?"

Our own George Forester had no room for complaint.

Then Bible asked, "How you satisfied with the officiating, the conduct of the crowd and the play of my boys?"

Apart, Coach Forester had nothing to which he might object.

So that's what we like about your son Edna E. Bible, he's a square shooter. He has proved us as little endorsement in legions paid by defeating our teams. But we're not holding that against him.

This year, we understand, he has another of those phenomenal seasons which have made the names of your Wiers and Rhoads, your Haines,

and your Harsh, and your Moore and Ford, really seriously famous.

But this year our Gridiron boys a number of our best who played in Lincoln that wild, raw day last fall and were beaten 7 to 6. Some of them, too, played in that game two years ago when you won 38 to 6. Those men want to defeat the Huskers before they graduate.

We believe in our Gridiron and the men who coach them. We think we can give you your money's worth of football games the same as you gave us in Lincoln last fall.

That game, we believe, was one of the best we played all year. We were greatly disappointed, of course, when Paul Pate's kick missed the cross bar by inches and the Cornhuskers won 7 to 6.

Today, however, we hope our team can win. You have the same expectations for your Cornhuskers. But regardless of the outcome we want you people of Nebraska to know that every year we have games to look forward to the Cornhusker game, with more expectancy than any other in our schedule.

And, however, we hope this great Cornhusker season may continue for many years, and for today, may the best team win.

"I like your new hat."

There are millions worth seeing first impressions.

We regard it as our duty to select each customer as wearing the hat best adapted to his individuality.

The tapered crown hat described here is THE hat for young men.

—but this style is only one of many in our stock.

Try them on after the game, and let us help you select one that just fits your personality!

ATHLETIC KNITTED WEAR FOR EVERY SPORT

412 Seventh St. — — — — — Des Moines, Iowa

Iowa State Coaches

This fall George Truesdale enters his fifth year as head football coach and his fourth year as director of athletics at Iowa State College. This sports writer throughout the Midwest has told in columns what he would like to get, in a single paragraph here about his successes on the gridiron. Therefore we'll confine ourselves to suggesting that you take inspiration of our Big Ten championship basketball team, a basketball team of athletic honors, and the more obvious physical improvements in our athletic plant—30 acres of land—sawed play field just north of State City, a golf putting green just north of the stadium, a baseball ground completed this summer and the beginning of a marvelous recreational ground just north of the campus—all within the last 4 years.

GEORGE F. TRUESDALE

MAURICE WEISS

Introducing to you the newest member of the Athletic Department and the Cyclone coaching staff and an addition of whom we are extremely proud—Merrill Wells. Wells is a Minnesota man and came to Iowa State with 2 years of coaching experience at Iowa Falls College, Iowa Falls, R. D. His record there was outstanding. While at Minnesota he received recognition on several all-American teams, a berth on the all-Ivy Ten team and the all-Midwest team. Later he played in the New York City East-West football championships in San Francisco and in the Century of Progress game in Chicago in 1933. He coaches the Cyclone basketball staff.

"Track" is our head football coach at Iowa State and more recently famous for the championship team which he coached last spring. And besides being basketball coach, he enters in variety football by coaching the ends. Joe is a Michigan man and came to Iowa State in 1931. At Michigan he was one of the school's greatest all-around athletes and the last eight letter man to graduate from that institution. He played center and end on the football team, center on the basketball team and pitcher on the baseball team. Before coming to Iowa State Joe coached at Olivet College in Michigan.

Cyclone Sophomores continued

1. The first thing I noticed when I stepped out of the car was the cold. It was a sharp contrast to the warm blanket I had been sitting under. I looked up at the sky, which was a deep, dark blue, and felt a sense of peace. The air was crisp and clean, and I could hear the distant sounds of the city. It was a beautiful morning, and I was lucky to be here.

2. The second thing I noticed was the smell. It was a mix of fresh air and the faint scent of coffee from a nearby cafe. I took a deep breath and felt a sense of relief. The world was so different here, and I was so glad to be a part of it. The sun was shining brightly, and the birds were singing. It was a perfect day, and I was so lucky to be here.

3. The third thing I noticed was the sound. It was a mix of the city's hustle and bustle and the soft hum of the car's engine. I closed my eyes and listened to the sounds of the world around me. It was a beautiful symphony, and I was so lucky to be a part of it. The sun was shining brightly, and the birds were singing. It was a perfect day, and I was so lucky to be here.

4. The fourth thing I noticed was the sight. It was a mix of the city's architecture and the natural beauty of the landscape. I looked out the window and saw the tall buildings of the city, the rolling hills of the countryside, and the blue sky above. It was a beautiful sight, and I was so lucky to be a part of it. The sun was shining brightly, and the birds were singing. It was a perfect day, and I was so lucky to be here.

5. The fifth thing I noticed was the feeling. It was a mix of excitement and nervousness. I was so happy to be here, but I was also a little nervous about the future. The sun was shining brightly, and the birds were singing. It was a perfect day, and I was so lucky to be here.

6. The sixth thing I noticed was the taste. It was a mix of the city's food and the natural flavors of the landscape. I took a bite of the food and felt a sense of satisfaction. The sun was shining brightly, and the birds were singing. It was a perfect day, and I was so lucky to be here.

7. The seventh thing I noticed was the touch. It was a mix of the city's texture and the softness of the landscape. I touched the ground and felt a sense of connection. The sun was shining brightly, and the birds were singing. It was a perfect day, and I was so lucky to be here.

8. The eighth thing I noticed was the thought. It was a mix of the city's ideas and the natural wisdom of the landscape. I thought about the future and felt a sense of hope. The sun was shining brightly, and the birds were singing. It was a perfect day, and I was so lucky to be here.

9. The ninth thing I noticed was the emotion. It was a mix of the city's feelings and the natural emotions of the landscape. I felt a sense of joy and a sense of peace. The sun was shining brightly, and the birds were singing. It was a perfect day, and I was so lucky to be here.

10. The tenth thing I noticed was the memory. It was a mix of the city's memories and the natural experiences of the landscape. I remembered the first time I came here, and I felt a sense of nostalgia. The sun was shining brightly, and the birds were singing. It was a perfect day, and I was so lucky to be here.

11. The eleventh thing I noticed was the love. It was a mix of the city's love and the natural affection of the landscape. I loved the city, and I loved the landscape. The sun was shining brightly, and the birds were singing. It was a perfect day, and I was so lucky to be here.

12. The twelfth thing I noticed was the hope. It was a mix of the city's dreams and the natural aspirations of the landscape. I hoped for a bright future, and I felt a sense of optimism. The sun was shining brightly, and the birds were singing. It was a perfect day, and I was so lucky to be here.

BE THERE
FOR THE *kick-offs!*

**SAVE TIME, MONEY, TROUBLE
GOING BY BUS**

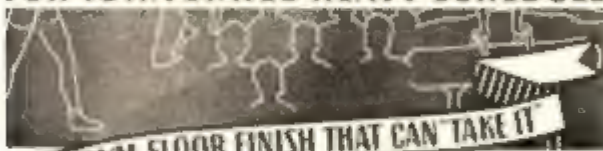

There are so many reasons why you'll find this service big to go to the game. Buses leave from New York, New Orleans, Miami, take you to within walking distance from the stadium. They go where you want to go. They're clean, comfortable, and they're fast. They're the only way to go to the game. They're the only way to go to the game. They're the only way to go to the game.

INTERSTATE TRANSIT LINES

FOR IOWA STATE'S HEAVY SCHEDULE

THE GYM FLOOR FINISH THAT CAN TAKE IT

IOWA STATE and more than 1,600 other schools now have Seal-O-San finished gymnasium floors. For Seal-O-San is the one floor finish that can take the punishment inflicted by all gym activities and come through unscathed.

Especially for basketball is a Seal-O-San floor ideal. Because Seal-O-San makes any wood floor (with non-slippery, its preventing skids and falls, it makes basic floor play, spudnik dribbling, and some confident shooting.

But there are many other advantages of Seal-O-San. Its permanent finished floor, for it never really has, then when you're at it, because it is applied without skilled labor, it seals the floor against dirt and moisture, thus eliminating costly scrubbing, and it is easy and economical to maintain.

Seal-O-San offers the correct solution to the gymnasium floor problem. Coaches and school officials are invited to write for complete information.
